

# Payment Reporting

Last Modified on 23/10/2024 9:15 am AEST

StrataMax has several reports available detailing payment information. These reports are useful to refer to prior to uploading payments to the bank or to assist with identifying paid invoices and processed payments.

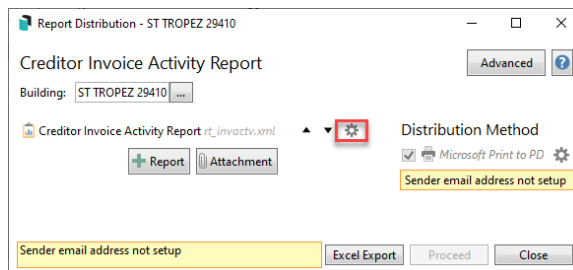

## Invoice/Creditor Activity Report

The *Invoice/Creditor Activity Report* will report all invoices, paid or unpaid, for a specific period (using the *creditor invoice* date), based on the number of days set and is not limited to current and old year - the date range can be entered for historical year invoices also. The **Creditor Activity Report** can be accessed via the icon.

To configure the number of days that the report will use for the report, you must change the 'Set Invoice Activity Days' setting, which is located under the configuration cog. Also the setting 'Set Invoice Activity Days for StrataMax Web Site', which affects the report displayed on the *StrataMax Portal* is located under **Creditor Management**. The **Creditor Activity Report** can be produced on a *global basis* and is also *available for upload* to the StrataMax Portal.

1. Search or select **Creditor Activity Report**.
2. Set printing preference using the radio button for *Screen, Printer, or Excel*.
  - Ensure you have the correct *Printer* and *Paper Source* if you intend to print the report.
3. Click *OK* to produce the report.
  - Configure the number of days for the report by clicking on the cog to produce the Configuration and reviewing *Invoice Days*.

## Example of Invoice Activity Report

The period date range is displayed in the top right hand corner and if the Creditor Invoice Date falls in this range the invoice will report.
