

Invoice Entry & Invoice Printing (Second Debtor)

Last Modified on 03/07/2025 10:33 am AEST

The menus with *Second Debtor* functions have been designed for invoicing external parties to the building that are not covered by the four sub-groups provided. The sub-groups provided for billing non-owners in StrataMax are: Electricity/Utility, Marina, By-Laws and Air-Conditioning. An example of when to use the Second Debtor functions for invoicing may be for storage spaces, or common property rented to tenants or other entities.

Invoice Entry for second debtors has similar functionality to **Invoice Entry** for lot owner accounts. The difference between the two is the list of accounts available to select. i.e. in the **Invoice Entry (Second Debtor)** menu, only second debtor accounts will be available. The [configuration](#) in *File / Configure* applies to both.

Second debtor accounts are not included in any levy arrears processes as charges to second debtors are typically invoices. Second debtor accounts can be included in the *Arrears Manager* menu to identify any accounts that are overdue, however this is only for reporting.

If a second debtor invoice is raised against a regular levy income code then it will charge interest. This can be identified by viewing the levies set up in the [Levy Invoice Code Setup](#) menu, with the exception of the income code for Interest / Other.

For example, if an invoice is raised against the income code 101 it will charge interest, whereas if the invoice is raised against the income code 108, it will not charge interest.

Invoice Entry (Second Debtor)

Create a new invoice

Creating a new invoice will charge the second debtor, and credit the selected account. A credit can be added by simply by entering the amount as a negative (-).

1. Open the **Invoice Entry (Second Debtor)** menu.
2. Ensure *New Entry* is displayed in the top right corner of the menu.
3. Click the *A/c Name* drop-down arrow to display the list of second debtors, then select the debtor and click *OK*.
4. When the list of expense and income codes immediately appears, select the required income or expense code, then click *OK*.
5. Enter all required details:

- *Date* (press Shift+2 to insert today's date).
- *Due Date* (set automatically based on the [Set Pay Days](#)).
- *Amount* (for a credit, enter a minus '-' in front of the figure).
- *Details*.
- *Comment for this invoice* (click *Previous* to repeat the comment from the most recent invoice if suitable).
- *Notes* if there is not enough space in details to explain what this invoice is for, it will print on the invoice.

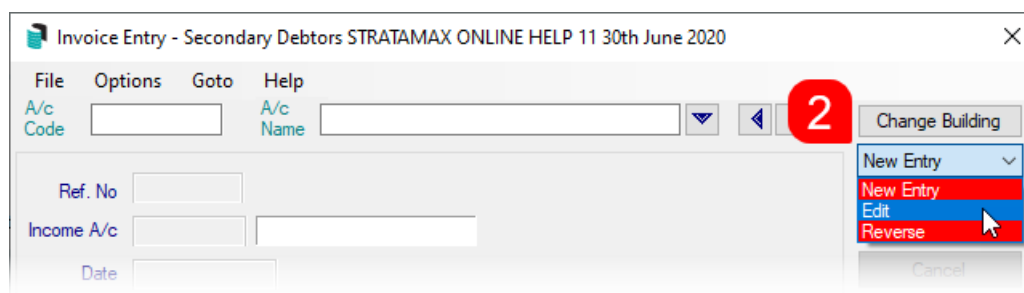

6. Click *Save*.

Before clicking *Save*, make a note of the invoice number in the *Ref. No* field, which will be used afterwards when printing the invoice. Once all of the invoices are completed, they can be printed in the ***Invoice Printing*** menu.

Edit an Second Debtor Invoice

Only invoices created in the current month can be edited. If the details are incorrect, delete the entry by editing the amount to zero (0.00) and re-enter the invoice.

1. Open the ***Invoice Entry (Second Debtor)*** menu.
2. In the top right corner, change the drop-down menu from *New* to *Edit*.

3. Click the *A/c Name* drop-down arrow to display the list of second debtors, then select the debtor and click *OK*.
4. Select the invoice to edit, then click *OK*.
5. Make change to the invoice as you require then click *Save*.

Reverse an Invoice

Reversing an invoice entry is required for invoices entered in the prior month. Invoices entered in the current month can be edited.

1. Search or select ***Invoice Entry (Second Debtor)***.

2. In the top right corner, change the drop-down menu from *New* to *Reverse*.

3. Click the *A/c Name* drop-down arrow to display the list of second debtors, then select the debtor and click *OK*.
4. Select the invoice to reverse, click *OK*.
5. If required, click *Balances* to change where the funds are to be reversed and;
6. Click on a period in *Aged Balances* to the correct period and click *Yes* to *Set posting month to match selected period?*
7. Click *Save*.

Invoice Printing (Second Debtor)

The following instructions are provided for printing all invoices not yet printed. At the bottom there are some variations noted for reprinting any invoices. Multiple invoices charges will appear on the same invoice page if they have not been printed previously.

Each invoice entry item will have it's own invoice reference, this is the 'M' number. If a previous invoice charge needs to be reprinted, you will need to determine that specific invoice number and ensure that it falls within the 'Invoice Number Range' Start and Finish fields.

1. Open the **Invoice Printing (Second Debtor)** menu.
2. Tag the account code in the *Select Lots* tab.
3. Select the *Message* tab.
 - Type in a temporary message to use for this invoice only, or select a different message by clicking the *Message Maker* button.
4. Select the *Conditions* tab.
 - **Report Order:** Select one of the following to print the arrears notices in that order:
 - *Account Number:* Print the invoices in account number order.
 - *Alphabetical:* Print the invoices in alphabetical order.
 - **Report Period:** These options are only valid for printed invoices not yet printed:
 - *Month to Date:* Print the invoices for the current month only.
 - *Year to Date:* Print the invoices for the entire financial year so far.
 - **Invoice Number Range:**

- *Start*: Type the invoice number that needs printing.
- *Finish*: Type in the *Start* invoice number. Leave the existing number suggested to print all invoices not yet printed, or change to a previous invoice number.
If you are reprinting a specific range of invoice numbers, type in the highest number of the range you want to select. In the *Invoice Number Range* section, fill in the *Finish* invoice number.
- **Due Date and Pay Amount**: Enter the number of days from the invoice date to set the due date.
 - *Show Nil if Paid*: Displays an invoice with a nil amount.
 - *Show Brought Forward*: Displays brought forward amounts if any.
- **GST**: Select whether to 'Print Non-Taxed' invoice's by clicking this option to select it.
- **Update Due Date**: Will update the due date based on today's date plus the number of days from invoice date.
- **Email**: This will use the Contract Preferences in the Roll to determine how the invoice will be distributed.

Reprinting a Printed Invoice

Refer to [Reprinting a Printed Invoice](#) article.

Creditor Invoices and On-Charging to Second Debtors

If a second debtor requires an invoice from the building to be charged to this person, the instructions below can include a copy of the original invoice from the supplier, which will be available when sending the on-charged invoice to this second debtor. The [debtor](#) must be created first, and the below can be used for the process.

1. Search or select **Creditor Invoices**.
2. Enter invoice as per standard [process](#).
3. Once complete, search or select **Second Debtor (Invoice Entry)**.
4. Select the debtor who is to be on-charged the invoice.
5. Create a new invoice per the standard **Invoice Entry (Second Debtor)** [process](#).
6. Search or select **Invoice Printing (Second Debtor)**.
7. Tag the account that had the invoice created, and click *Proceed*.
8. Select the Email icon From the preview window and add the creditor's original invoice from the Attachment area.
9. Click *Send* to finalise the invoice with a copy of the creditor's invoice for the debtor.
