

System Support Tools

Last Modified on 10/08/2026 3:26 pm AEST

There are some features and functions in StrataMax that are to be used only with the guidance of the StrataMax Support Team. Some of these may be accessible and limited content is outlined below.

Please contact on support@stratamax.com should you require clarification of any of the below items.

Support only Tools

These are areas that in StrataMax that may either:

- require a password to access
- allow review only and a password to edit details

These are StrataMax Support Team **ONLY** functions and have been disabled as they are no longer required.

- Audit Check

System Tools

Limited details below will provide information related to the use of the feature. These areas are for use with special circumstances and it is recommended that an Administrator assists or please contact support@stratamax.com for further information.

Do Not Click

This will create an error dialog screen to be used for troubleshooting purposes to submit to StrataMax Support.

Un-liquidated Claims Register

This feature was previously used by Queensland Buildings in relation to recording amounts due for recovery of arrears. Legislation changes have now made this obsolete.
