ARM

ARM (www.arm-cc.com) is one of the third party compliance service providers that are able to receive and supply StrataMax compatible data files, which can be imported into StrataMax.

These third party compliance service providers usually validate the following types of information, but please check with ARM to confirm the precise nature of the service that they offer.

- Public Liability Insurance
- Professional indemnity insurance
- Work Cover insurance
- Licences
- Contractor Registrations and ABN
- GST status
- Contractor Safety Compliance

Please Note: Imports into *Compliance* will not update any information fields in *Creditor Maintenance*.

For more information on Compliance and how to set it up and use import files from ARM, see our *Compliance* article.
