Debtor (Second Debtor)

Last Modified on 18/01/2024 9:11 am AEST

The instructions in this article relate to **Debtor (Second Debtor).** The icon may be located on your StrataMax Desktop or found using the StrataMax Search.

This facility is designed to allow for billing outside of a standard levy process. Examples may include billing for storage spaces or common property rented to tenants or other entities. These debtors can have owner or non-owner records and provide them for various purposes. This type can also exist in a Sub-Group area to facilitate final utility billing.

Second Debtor Accounts are not included in any Levy Arrears processes as charges to Second Debtors are Invoices. Second Debtor Accounts can be included in the Arrears Manager to identify and report overdue accounts.
